

Design Tool 11.3: Time to Regroup

Directions for students: So your teamwork did not go as well as you'd like? Discuss these questions together and ask a team member to write down your responses. Then decide what you want to happen in your next teamwork meeting.

- 1 What happened today as we worked in our team? What went right and what went wrong?
- 2 Did everyone follow the team guidelines? What do we need to pay more attention to? Do we need to add a new team guideline? If so, write that guideline below.
- 3 Did all of us participate? If not, why not?
- 4 Were we all friendly and positive?
- 5 Did we all support and encourage one another?
- 6 Did we make the needed progress on our STEM project? If not, why not?
- 7 What about our teamwork could we change or improve?
- 8 What do we want to happen at the next meeting? What are the keepers from our teamwork today?
